

INPUT

Single-layer

matrix, igraph
network, edge_list

Multilayer

3D array
list of matrices / igraph
networks (ergm.multi)

ESTIMATION

nethist()

single-layer network histogram

hnethist()

shape-based model selection

multinethist()

multi-network histogram

OUTPUT

Output Classes

nethist
hnethist
multinethist

S3 Methods

plot() print()
fitted()

covariate_plot()

covariate profiling

netsummary_plot()

network topology summary

nethist_control()

algorithm control

 main framework

 optional / supplementary
